HTA (NHS R&D Health Technology Assessment Programme)

The HTA programme is a **national programme** of research established and funded by the Department of Health's Research and development programme.

The purpose of the programme is to ensure that high quality research information on the costs, effectiveness and broader impact of health technologies is produced in the most effective way for those who use, manage and provide care in the NHS.

TRIPdatabase <http://www.tripdatabase.com>

TRIP was created in 1997 to bring together all the 'evidence-based' healthcare resources available on the Internet. It started with 1,100 links recorded from 15 sources and since then it has grown rapidly in both coverage and usability. The basic principle has stayed the same since the start of the site. A high-quality resource is identified that allows unhindered access to the publication. The Title, URL and Date of Publication is recorded and added to the database. Subsequently the URL is 'spidered' and this process 'grabs' the relevant text from the site and uses that to allow text searching.

(autism, autistic)

2 inkluderas

NHS Economic Evaluation Database (NHS EED), Health Technology Assessment (HTA)

autism/All fields - 31 Hits – samma som i Cochrane.

Dessutom har breda sökningar gjorts i PubMed, PsychInfo, CINAHL och AMED. Inga ytterligare översikter hittades i dessa databaser.

Utfallsstudier för att komplettera Diggle, 2003:

PubMed, 20040217: Childhood Developmental Disorders, Pervasive + 0-18 years + 2003
348/0

PsychInfo, 20040217: Autism + 0-12 years + 2003
232/0

Cochrane RCT, 20040217: autism + 2003
10/0

(Efter personlig korrespondens med en av översiktsförfattarna till Diggle, 2004 skall en uppdatering av denna ske under hösten. Två små RCT har tillkommit.

ERIC, 20040218: autism + 2003
88/0

Vid uppdatering till och med 2007 har inga nya systematiska översikter tillkommit.
